Hydrology Operations Manual

XT Sim Setup

Once you have entered you will see this screen below come up
Open the external tab as highlighted until you see horizons.
Then you are to add new users so click NEW as shown below

Once new has been clicked you need to add the following details

First name = remote
Last name = hydrologyXX this is the next number in order as you can see from the image above. the XX will the last digits for your IP number refer to the comms reporter to make sure you have the right IP.
Common name = rhydro0XX
This is the next number in order from the screen above
Password = hydr0l0gy
Confirm password the click ADD USER

Hydrology Operations Manual

XT Sim Setup

You will then see this screen which you will have to add the following details as highlighted
Your IP Address will be the next one in order on the CommsReporter Index under the XT tab found at bottom of page (\\pnt-cd1\Hydrology\Hydrology Sites\General Site Information\)

- Last Name is the (hydrologyXX) the xx is the IP number of your sim

- The email section can not have the same email so just make a random email IE(junkXX@junk.com)The XX is the IP number of your sim
- Add your IP this is the next one in order you get from the Comms reporter (10.10.0.XX)
- Type in the (Office Anywhere Realm) oa.telecom.co.nz

Once you have typed all of the information in you just need to click UPDATE and the sim should be set to go.
